

AX-17 Germany Prescribing Information — Version 4.2

Document Control

Jurisdiction: Germany

Status: APPROVED

Effective date: 15 September 2026

Supersedes: Version 4.1

Document ID: DE-AX17-LBL-042

4.2 Renal Impairment

For adults with moderate renal impairment (eGFR 30-59 mL/min/1.73m²), the approved starting dose is 25 mg once daily. Clinical review is required before escalation above 50 mg daily. Severe renal impairment is outside the scope of this section.

6. Safety Note

Do not infer patient-specific treatment from this label. Medical Affairs responses must cite the approved local source and escalate patient-specific treatment requests.
